GALVANISM

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of the age.

Dr. CHRISTIE'S GALVANIC

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the nervous organs and invigorating the entire system. Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, ASPHIXIA, NEURALGIA PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, TIC COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and

Nervous Diseases,

which in many cases arise from one simple cause in the

A Derangement of the Nervous System.

In NERVOUS COMPLAINTS, Drugs are of no service, for they weaken the whole system, the delicate prostrated system requires the strengthening life-giving, vitalizing influence of Galvanism, as prepared by this beautiful discovery the exhausted patient soon recovers health and vigor.

The genuineness and excellence of

Dr Christie's Galvanic Curatives,

consists in this: That they arrest and cure disease in the most speedy manner, instead of prolonging a painful sucking the patient, like some of the Galvanic Shocking Institutions.

Having more than one hundred agents throughout the United States and Canada, we are enabled to supply any reasonable demand.

60,000 Persons

of all ages classes and conditions among whom are a great number of ladies, who are particularly subject to Nervous Complaints, have been

RADICALLY AND PERMANENTLY CURED

when all hope of relief had been given up and every thing else had failed in vain.

To illustrate the merits of GALVANIC BELT we refer the reader to persons afflicted with that bane of civilization DYSPEPSIA or any other Chronic or Nervous Disorder, in whom luxury causes stimulants of some kind which by the action on the nerves and muscles of the stomach afford temporary relief, but which leave the patient in a low state, and with increased virulence after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer even in the worst symptoms of an attack and simply put the Belt around the body using the Magnetic Fluid as directed in a few minutes a pleasant perspiration will start over the whole body which will pass on to the spine and the nerves back again to the positive thus keeping up a continued Galvanic correspondence without interruption. Thus the nervous DYSPEPSIA is PERMANENTLY CURED in a few DAYS IS OFTEN A FAMILY SUFFICIENT TO RADICATE THE DISEASE OF YEARS.

Certificates and Testimonials

From the most Respectable Sources,

Could be given sufficient to fill every column in this paper. We make a few selections. The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter narrating one of the most remarkable events in the annals of Medical Science is from

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and extensive information—

SIDNEY, New Jersey July 12, 1849

Dear Sir—Dear Sir You wish to know what has been the result in my own case of the application of THE GALVANIC BELT AND MAGNETIC FLUID. My case briefly is as follows:

For about three years I had been suffering under a complication of diseases, all of which had been gradually growing worse and worse, until I became prostrated to such a degree that I was confined to my bed. I had obtained no permanent relief from any course of medicine or treatment whatever. My physicians were honest men, but here their prescriptions had failed. About ten years since, in consequence of the severe exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for years afterwards gave me indescribable anguish. To the use of the various means of relief prescribed by my physicians I sometimes ascribed the great relief, but this relief was in fact temporary, and the matter of this and many other diseases remained in my system, because it was impossible to institute a suppression of the Bronchitis became a confirmed Dyspepsia and Rheumatism. Knowing that these disorders were caused through the medium of the nervous system, and that my sufferings were rendered more severe by the labor of those duties, and to the neglect of those duties on which my mind was the highest of her joys.

Perceiving from effect to cause, I concluded that my nervous system must be reached. Relief I could be indulged of my obtaining relief in the most distressing maladies. In the short time it seemed to be no remedial agent could restore and recuperate my Nervous system. Being thus fully convinced I tried for this purpose Mr. Hotel failed. At last I was led by my friends to try one of your inventions, and though very slight hopes of their efficacy, I determined by the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT IN TWO DAYS my Dyspepsia was cured, in eight days I was enabled to walk to my pastoral labors, for here I was compelled to keep a single service on account of the Dyspepsia and my Rheumatic affection also caused me to be ill. If time permitted, I could state a great deal more with the details of particulars, but I can make only a brief statement. My Dyspepsia has never returned; the Rheumatism once in a while visits me but not severely, and is easily arrested and is manifestly being driven from its hold upon my system and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from nervous affections. They have tried them, with the same perfect success in every case.

I am dear sir very respectfully yours,

ROBERT W. LANDIS

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most surely cure the disease in the course of a very few hours if taken at the commencement—

It has been before the public for more than six-teen years and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE OF THE

CHOLERA

It has been thoroughly tested in every country and every climate, and its effect has every where proved the same

SURE TO CURE,

even where the disease has advanced to its last stages

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA both at home and abroad and of the little success which has thus far attended the attempts to check its frightful inroads on human life

Such being the fact it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera and eradicating it from the system

Mrs. Kidder would most respectfully call the attention of the public to this invaluable medicine known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine when the disease had advanced to its last stages

It is hoped that every housekeeper will keep the Cordial at hand and if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting relieves the pains, stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state however severe the attack may be or however low the patient may have become it invariably restores

The Severest Cases of Dysentery

are immediately counteracted, the pains allayed the bowels heated and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours

Chronic Diarrhœa,

Either in children or adults, of months or years continuance is most readily cured with this Cordial, notwithstanding they may be reduced to mere skeletons, it immediately strengthens and shortly restores them to perfect health

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint—it gives them immediate relief, and they very soon recover

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It universally checks vomiting per boat from any cause whatever

Children that are Teething,

if troubled to Diarrhœa should always be provided with this medicine as it will keep the bowels regulated and keep off the Canker. It is wholesome safe and pleasant to the taste, and children are fond of it and will take it without trouble or dislike

For General Debility and Dyspepsia,

it is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution

In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of All Healing Ointments and Panaceas that are now advertised as the *"most effectual and certain cure for all diseases indiscriminately to which human minds are subject*

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve from no considerable motive and expense not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest solicitations of personal friends and those who have experienced its wonderful medicinal and healing properties

Testimonial need, that we do not expect to realize adequate remuneration for our services would be absurd to allege and untrue. But we will leave our article that if, for both, we are richly paid and the article we very soon have occasion to sell—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty, *puffing of the Press*, or the fabricated certificates of individuals and shall make use of them only so far as they have been or hereafter may be *entirely voluntary and unsolicited*

The Salve is now before the Public

Those who have used it will refer to its real virtues and medicinal properties. Testimonials were unnecessary to our views—they never could be superadded

Here are some Certificates—

This is to certify that I was afflicted with a severe Sore upon my neck for the space of about two months in the month of June 1848 I commenced using the above Salve and in the course of a fortnight I was entirely cured. After using many remedies without number and having Doctored with the most eminent Physicians in this State I found the above Salve to be the only one which could cure me and I cheerfully recommend it to the public. I have also used it in my family for Burns and Bruises and find it to be a most excellent article. I have also known it to cure Corns on the Feet very speedily. I feel happy to furnish the above for the benefit of the afflicted.

The Androscoggin and Kennebec Railroad.

Strong efforts are now making to complete this road to Waterville by October next In order to do this and to make the matter go off easily, the company have authorized the issue of preferred stock to the amount of thirty thousand dollars, at twelve per cent interest Of this stock the present stockholders have taken what they wish and there remains now twenty thousand dollars of it which it is expected and desired the citizens of Bangor will take up and thus not only help forward the enterprize of the friends of internal improvement in Waterville, but at the same time awaken an interest in behalf of extending the road to this city Mr Harrison Barrett, of Waterville, agent of the Company is now in this city with the books for the purpose of offering this stock to the citizens of Bangor, and as the books for this 12 per cent stock must be closed to morrow, whatever our people intend to do must be done to day, and the money will not be needed under eight and ten months

As the road to Waterville draws near completion it becomes the citizens of Bangor to be looking forward to the time when it shall be extended to this city And if they mean to extend it there would undoubtedly be a great saving by enabling the whole force now upon the Kennebec road to be transferred at once to the Bangor road At any rate now is the time and a profitable one, to help forward the effort to improve our State by railroads

The Mobile (Ala) Register, refers to what it calls "very important statements "recently made at the South, in reference to the future action of General Taylor on the subject of the Wilmot Proviso It seems that Governor A G Brown a candidate for re election to Congress in the Fourth District of Mississippi, is making stump speeches in which he of course, labors to make the administration unpopular at the South In a late speech before a democratic Convention at Monticello, he said— The people will see at the next session both Houses of Congress pass the Wilmot Proviso, and will see that document signed by a Southern President Such was the opinion of leading Whigs in Mississippi with whom he had conversed such he knew to be the universal opinion at Washington, and such was the opinion of every intelligent man who was well informed on the subject Gov Brown further stated that he "had held a personal conversation with Gen Cass since the election, and that Gen Cass then said unequivocally that he never would have subscribed to the doctrines of the Wilmot Proviso, and that he could not perceive how any man could believe that he would after having read the Nicholson letter

☞A company was formed in New York some time since for the purpose of facilitating travel between the Atlantic and the Pacific oceans by the establishment of regular steam accommodation by the Lake Nicaragua and the San Juan river It seems now that the British government has given notice to this company that the river San Juan is within the territory of the Musquito King, and his perogatives must be held inviolate, under the protection of the British crown The pith of this matter is, that England wishing to secure for herself the right of making a ship canal across the Isthmus and of securing to that a monopoly of the travel, has manufactured a King for the Musquito Indians and taken him under her protection and thus attempts to elevate a tribe of four hundred naked Indians into a kingdom and one of its members into a king, and even then claims for this king territory which belongs to the State of Nicaragua in order to grasp the advantages of the proposed canal

This claim of the British government to interfere with the affairs on this continent, particularly when it interrupts and changes commercial facilities as in this case and when this is the entire basis of the matter, cannot and ought not to be allowed

☞The Washington Union has been making a long drawn outcry because of removals from office without the assignment of some moral cause for them But then comes along the case of Mr Nathaniel Denby, Navy Agent at Marseilles who proves to be a defaulter to the amount of $156 508 48 and the Union, nothing daunted, declares that the defalcation, whatever the amount, was not occasioned by robbery Oh no indeed nothing like robbery, Mr Denby allowed his friends in this country to use the government money in speculation and trade, and now that it is called for by the government it cannot be repaid! The fact is that rotation in office is a very good thing to keep men from dashing in upon the public money committed to their charge, and a few such discoveries as this will justify many removals for the purpose of trying the experiment of seeing who are sound

If the Union can smooth down the heavy defalcation of over one hundred and fifty thousand dollars, by saying that it was not robbery, then there are few political or any other sins which any of its party can commit which can not be palliated, forgiven and justified

Bangor Lumber Market.

Amount of Lumber Surveyed from the 1st to 31st July, 13,339,804 feet, against 30 387 489 feet for the corresponding month last season showing a falling off in the survey for the month of July of 16 987,685 feet

The aggregate of the lumber surveyed to the 1st of Aug is 65 585,911 feet against 88,363,135 feet to the same time last season, making a difference of 22,777,224 feet less

The deficiency in the survey this season appears to be the result of an excessive drought and not for the want of a vent or demand for lumber B H

The New Census.

We publish the following Circular in order to let the Public see what is wanted in Washington by the Census Department

Department of State }
Washington, July 10, 1849 }

Sir —Will you have the kindness to inform the Census Board immediately what subjects embraced within the Census of 1840 have no particular bearing upon the resources of your State, and which had better be dispensed with to the admission of more important considerations Please also inform the Board what subjects not embraced in the Sixth Census would in your opinion, be worthy of notice in the Census of 1850

Anxious to arrange the preliminary measures in such a manner as will b to the exhibition of the varied interests of the Union, the Board has authorized the preparation of blanks to differ somewhat as the requirements of the different sections may suggest In blanks sent to the Northern States, to include questions relative to the growth of cotton, rice and cane sugar would be as superfluous as to include productions exclusively Northern in blanks sent to the Southern States

It is hoped that the importance of the subject and the solicitations of this Board, will ensure an immediate response to inquiries the object of which is to ascertain the development of the resources of the whole country, and the peculiar resources of your State and neighborhood

Queen Victoria, through her Private Secretary has made a very handsome acknowledgement of a copy of Webster s large dictionary, presented and the reply received through Mr Bancroft The letter is worthy of perusal —The Secretary, C Meger, writing from Buckingham Palace, says —

"I have been commanded to express to your Excellency and to beg of you to transmit to Messrs Merriam, Her Majesty s gracious thanks for this beautiful present which, Her Majesty highly values not only on account of the great merits of the work itself, but still more so as a sign of those feelings towards Her Royal Person on the part of a large portion of the Anglo American nation, which your Excellency informed me it was intended to represent, and which after the political disunion which has taken place between the United Kingdom and the United States, could not indeed have found a more appropriate way of expressing themselves than the presentation to Her Majesty of a work on the English language which directly refers to that powerful and indissoluble bond by which the two cognate Nations of the Eastern and Western side of the Atlantic, will for ever remain united Your Excellency, as well as Messrs Merriam will, no doubt feel great pleasure in learning that her Majesty has placed the work presented through your Excellency amon at the few selected volumes which compose Her own private Library

☞The Republic, speaking of the Removals says—

"The people in electing General Taylor to the Presidency did not design merely to render a distinguished acknowledgement of his military services they desired to accomplish thereby a peaceful revolution in the Government They took the General as they found him a decided Whig, and they expected him if elected to form a Whig Administration and to conduct the Government in a liberal and powerful spirit He himself avowed, through his friends in the Philadelphia Convention, that he should hail with pleasure any other nomination than his own 'being persuaded that the welfare of our country required a change men and measures, in order to arrest the downward tendency of our national affairs We cannot misinterpret such language as this It is of record It was published, we have no doubt in every political newspaper in the country General Taylor subsequently in express terms repeated and reaffirmed it, and stood before the country as a candidate for the Presidency who was a decided Whig and one who believed that the welfare of the people required a change of "men and measures"

What change of men? Was it to be limited to the change of the Cabinet ministers? The heads of Departments of the late administration resigned their offices, as a matter of course Whig successors were appointed Did any living man imagine that General Taylor was about to fill those offices with his opponents? Those Cabinet Officers found their bureaus and departments filled with the worst enemies of General Taylor—bitter hostile vindictive rancorous partizans, men who had ridiculed and maligned him in libellous letters and slanderous speeches, and who were anxious that his administration should end in disaster and disgrace These men were all in the secrets of the late administration, participants in its abuses and frauds and solicitous to conceal them Did any candid and honest man imagine that such individuals were to be retained in office?"

Weir the Artist.

Mr Willis, writing to the Home Journal from Cozzens s new Hotel at West Point, relates the following

"Within a stone s throw from the portico of the Hotel, upon a knoll half hidden with trees stands one of the most beautiful structures of its kind, in this country—a stone church of English rural architecture, built by the painter, Robert Weir The story of its construction is a touching poem When Mr Weir received ten thousand dollars from government, for his picture on the panel of the Capitol, he invested it, untouched, for the benefit of his three children On the death of these children—all three—soon after, the money reverted to him, but he had a feeling which forbade him to use it—Struck with the favorableness of this knoll under the mountains as a site for a place of worship much needed by the village near by, he applied for it to Mr Cozzens, on whose property it stood, who at once made a free gift of it for the purpose The painter s taste and heart were set to work, and, with the money left him by his children, he erected this simple and beautiful structure as a memorial of hallowed utility Its bell for evening service sounded a few minutes ago—the tone selected, apparently with the taste which governed all, and making sweet music among the mountains that look down upon it Mr Weir named it "The Church of the Holy Innocents"

Patriotism of our Revolutionary Era.

In looking over the "American Archives" (says a respected correspondent) I found the subjoined, under the caption of "General Orders," and though of little importance at this day, it presents to my mind another beautiful evidence of the high toned morality that adorned the still more lovely character of the immortal Washington How different (says our correspondent) from other men! The more his public life is examined, the more brilliant and shining are his many virtues, and the age of the world has not yet done if it ever come to do, *complete* justice to his merits The legacy left this nation in his character is inexhaustible, and the young and the old of all ages, in all time to come, may draw upon it, and, by emulating his virtues and following his example become rich in all that constitutes the good man and the patriot

Letter from General Taylor.

The following letter from Gen Taylor was transmitted to the Legislature of Maine by the Governor on Thursday last

Washington July 27, 1849

Sir—I have had the honor to receive your communication of the 23d inst extending at the request of the Legislature of Maine an invitation to visit the capital of that State, and tendering me its hospitalities

I receive with great sensibility this kind invitation on the part of the authorities of Maine and should be much pleased were it in my power conveniently to accept it—and visit a State so rapidly advancing in all the elements of prosperity and greatness, but I fear that other engagements will deprive me of that satisfaction

I be pleased to convey to the honorable legislature my thanks for the honor of their invitation, and accept my acknowledgement for the flattering terms in which it has been conveyed

I am very respectfully your most obedient servant Z TAYLOR

Reclaiming Clay Land.

An English agricultural writer says that the pleasant tillage system as practised by scientific men in England is doubtless an immense improvement on the system in vogue some years ago—but of all the discoveries of the present day, the conversion of stiff stubborn clays into a friable mould through the means of thorough draining, double trenching or subsoiling is by far the greatest And if we consider fully the great importance of it the enormous benefit it has conferred on landed proprietors the great change it has effected on the face of the country and the complete revolution it has made in the whole farming practice we cannot be too thankful to Mr Smith, of Deanston the author of it

☞A despatch from Washington dated 4th, to the Boston papers says

Serious charges it is said have been received at the Department of State from eleven American prisoners at Jalapa Mexico against Hon. Nathan Clifford our Minister there to the effect that he refused to listen to their petition demanding release They belonged to the returning U S Army and were captured by Mexicans imprisoned and have been confined over a year The matter is undergoing a secret investigation

From Texas—Attack on a United States Train.

A gentleman in this town says the Corpus Christi Star of the 7th ult, received a letter from Laredo on Monday last, which stated that news had been received there that the Indians had attacked a train of U S wagons between Bexar and Eagle Pass and killed thirteen teamsters taking all their mules—But one teamster escaped

A gentleman was lately inquiring for a young lady of his acquaintance She is dead very gravely replied the person to whom he addressed his inquiries Indeed I never heard of it, what was her disease? 'Vanity returned the other, she buried herself alive in the arms of an old fellow of seventy with a fortune, in order to have the satisfaction of a gilded tomb

A beautiful varnish can be made by dissolving copal in chloroform, it can also dissolve other resinous substances, and also fatty matter and is therefore enabled to make a very excellent leather varnish

It is a fair step toward happiness and virtue, to delight in the company and conversation of good men, and where these cannot be had, it is better to keep no company at all

"The greatest pleasure I know," says Charles Lamb, is to do a good action by stealth, and to have it found out by accident"

AGENCY FOR BUSINESS

WASHINGTON
NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifications and claims* The experience of sixteen year's practice, an extensive collection of rare works decisions, &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office EDMUND BURKE, Late Commissioner of Patents

NEW AND Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black Sandy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O M Ballard's

Permanent Liquid Hair Dye,

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant the color it with the Dye which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade or wash out

In short, from its peculiar delicacy softness and easy application, it is worthy the attention of all who may wish to improve the color of the Hair as it will make any shade, from a white to a jet black It is now used to an unaccountable extent, by persons who have prematurely turned gray, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble

Dr. Townsend's COMPOUND EXTRACT OF SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter, and warranted superior to any sold It cures without vomiting purging, sickening or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person but it *creates new, pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strength Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats Difficult or profuse Expectoration, Pain in the Side &c have been and can be cured

SPITTING BLOOD

New York April 28, 1847

Dr TOWNSEND—I verily believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and did not expect to live —I have only used your Sarsaparilla a short time and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant,

WM RUSSELL 65 Catherine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her but without success at last although we could find no recommendation in your circulars for a case like hers we thought, as she was in very delicate health we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength but she has had no return of the Fits to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles Leucorrhoea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness — It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life*" should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—in Costiveness Piles, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalis used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder or soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c, &c*, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not A number of these Mixtures, Pills &c are injurious to females, as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores, have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully,

ISAAC W CRAIN 106 Wooster st

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P PULING M D, J WILSON M D, R B BRIGGS, M D, P E ELMENDORF M D

Albany, April 1 1846

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements —they are worthless imitations, and should be avoided

HART'S VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Spasmodic Contractions Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, Apoplexy Paralysis General Debility Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever affect the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions Spasms &c Dr Hart would impress it upon the minds of the afflicted that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases As its tendency is to insanity, madness and death the most

SKILLFUL PHYSICIANS

of Europe as well as those of our own country, have pronounced Epilepsy incurable And it has been so considered by many, until this most important of all discoveries was made by Doctor S Hart, nearly six years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record and has acquired a reputation which time alone can efface Physicians of undoubted skill and experience, ministers of various denominations as well as hundreds of our eminent citizens all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends who are thus afflicted as the only remedy

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine One says, "I have suffered beyond my power of description but now I rejoice in being fully restored to health and happiness" Another says, "I thank God that I am a well man I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief" Another who is an

EMINENT LAWYER,

and well known in this city, says "my son has been afflicted for years with Epilepsy but is now enjoying good health from the Vegetable Extract Its fame," says he "should and ought to be sounded to the ends of the earth" Another says, "Language is entirely inadequate to express my gratitude to Dr Hart for having been the means under the blessing of God, of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty three years, and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole"

Mrs J Bronley 115 Orchard street, New York, states that she has been subject to Fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dexter Russell co, Alabama who is one of the best Physicians in the State, says that he has been much benefitted by the use of the Vegetable Extract and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge

Curtis G Marberry, Esq, formerly Postmaster at Lima Mills, Crawford Co, Pa, now living in Erie Co Pa states that for many years past he has been sorely afflicted with Fits and he is now happy to state that a perseverance use of Dr Hart's Vegetable Extract has restored him to sound health, being entirely freed from that worst of all diseases

Mr Stephen E Pratt, corner of Sixth Avenue and Twenty sixth Street, New York states that Mr Charles E Boughton, a member of his family, has been so severely afflicted with Epileptic Fits for many years that he was obliged to relinquish his business Having used Dr Hart's Vegetable Extract (says Mr P) he was soon restored to perfect health and left this city for the State of Ohio to resume his business

Rev Mr Smith, Rector of St Peter's Church, Spotswood New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract and his health has been so much improved that he hopes by Divine blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Secore Esq of Philadelphia, afflicted with Epileptic Fits for twenty seven years and six months —After travelling through England, Scotland Germany, and France consulting the most eminent physicians and expending for medicine, medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever and was cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with him, which I did I first visited England I consulted the most eminent physicians there in respect to his case they examined him and prescribed accordingly I remained there three months without perceiving any change for the better, which cost me about two hundred and fifty dollars, pocketed by the physicians and the most that I received was their opinion that my son's case was hopeless, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November, with my son as far from being cured as when I left I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone he was restored to

PERFECT HEALTH

His reason which was so far gone as to unfit him for business is entirely restored, with the prospect now before him of life, health and usefulness He is now 28 years of age and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health

Now, sir, faith without works I don't believe in —To say I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars, I have no doubt you will think this another and quite a different thing The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully

(Signed) WILLIAM SECORE.

THE TIME IS NOT FAR DISTANT

When thousands who are now trembling under the hand of this dreadful disease, and fearing that every attack may prove fatal will find permanent relief and be restored to new life, by using this celebrated medicine

Dr S Jewett

Dear Sir—I have examined your *Pulmonary Elixir* and am well satisfied that it *merits the full confidence of* the community, and being what it purports to be a convenient and *safe* remedy for *all* the diseases to which the respiratory organs are subject. It may be used with much more *safety* than almost any other article offered for the purposes [illegible] the impaired action of those organs the frequent and legitimate result of most other remedies of the class by reason of *their opiate character* is by this, entirely obviated

The physician who should meet with it in families, would find it a *ready assistant* by which his own labor in the dispensation of medicine would be obviated, and his efforts for relief essentially aided

With much consideration your obed't servant

Sir —Having used your *Health Restoring Bitters* and *Pulmonary Elixir*, to a considerable extent, in my family the past winter, I would beg leave to bear testimony as to the efficacy of those medicines, the former for *restoring loss of appetite* for *headache, languor* and *general debility*, the latter for *coughs* and *sore throat*.—In fact I think *no family should be without those restoratives always at hand* thereby frequently *superseding* the *necessity of calling in a physician*

Holden's Alterative and TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children, supposed to arise from worms are caused by a deranged state of the stomach and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony.

We, the undersigned have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

N. H. DOWNS'S Vegetable Balsamic Elixir, The Great Northern Remedy for Consumption!

ALSO the most effectual remedy in the world for *Colds Coughs Whooping Cough Croup or Quinsy, Asthma, Pain in the Side or Stomach* and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked and differs from that of most medicines recommended for the same complaints in the following particulars

1st—It never irritates the organs it should soothe —never dries up the cough, leaving the cause untouched—but first *loosens the cough, next causes the expectoration* and *then removes the cause eradicating it completely* from the system, when as a matter of course the *cough ceases*, and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet, it will entirely remove it and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration* thus expelling by the pores of the skin those noxious fluids and impurities of the blood the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWNS'S ELIXIR is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestable evidence, that for

CONSUMPTION,

And all all diseases of the *lungs, the liver and the pulmonary organs* it is *unrivalled—unequalled* — HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use*, have found in the advanced state of their disease that RELIEF FROM SUFFERING which they had vainly sought from every other source

This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 4½ oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures from every part of the country, many of which have been published *and may be had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST ALBANS VT, to whom all orders for supplies of the medicine should be addressed (stating the best mode of sending it)—also sold by agents in nearly all the villages and towns in the country
